Revised 05/14 2015

GREENFIELD TOWNSHIP FIRE DEPARTMENT

Dear resident,

When you have an emergency at your house, be it a loved one experiencing a heart attack or a clothes dryer on fire in your basement, TIME *will* be the major determining factor in how we *can influence* the outcome. One of the biggest problems we encounter on an emergency run *is* finding the correct location. When people place their address on their home or on their mailbox, they seem to always place it so it *can* be seen in the direction the mailman approaches. This is great for the postal service, as they are driving very slowly, and *usually* stopping at every home. We, on the other hand, are usually in a hurry, and need to be able to spot *an* address from a distance. We also may not be coming down the street in the same direction the mailman does. The remedy for this problem is for each homeowner to place a green, reflective address sign in a prominent location on their property where the *numbers* are on both sides *and* can be seen from both directions. This can be placed on a mailbox pole or a separate pole. These signs are available at our fire station for \$7.00. This is our cost for the signs. In the interest of public safety, we sell them at our cost.

I highly recommend the use of these signs, as they are the best way to help us find your home when you need us *most*.

Please call or stop in at the station for more information or to get your sign.

Thank you,
Greenfield Township Fire Dept.

Road Right-of-Way Policy

Right-of-Way Permit

No work shall be *done* or object placed within the Right-of-Way of a Greenfield Township road without the permission of the Greenfield Township Trustees. Large rocks, personalized mailboxes, and other such obstacles become liabilities in accidents resulting in injury or death. Permission can be obtained from the Trustees at a regular 'Trustees Meeting,

Culvert Driveway Page

The culvert pipe shall be a minimum of 16-gauge, galvanized corrugated metal or double walled plastic (*if approved*) pipe, a minimum of 12-inches in diameter or larger if determined by the Road Superintendent, and shall be a minimum of thirty-feet in length. Appropriate bands shall be used to join the necessary sections of pipe to prevent displacement,

After the existing vegetation is removed from (the roadside ditch, the culvert shall be under laid with two inches of gravel and covered with sufficient gravel so the completed installation will provide for drainage of water away from the existing township road pavement.

Drainage

Drainage into the Right-of-Way ditch shall be by permit only. Drainage of treated effluent shall be as a last resort only, and the permit application must be accompanied with a letter from the Fairfield County Health Department, stating that no other reasonable option is available,

Driveway Design

Driveways for commercial vehicles to back out. onto (he public highway shall not be permitted. Concrete driveways within six feet of the edge of the road pavement are permissible as long as they are at least one-half inch below the road pavement as measured along the grade of the existing slope of the road

Planting

No planting other than grass shall be allowed from the centerline of the road, back thirty-feet.

Rural Mailbox

Mailbox supports must be in accordance with the current ODOT Design Manual. Support for rural mailboxes must be of the "breakaway" type. Standard supports are a 4-inch by 4-inch square timber post, a 4^{1/2} -inch round timber post, or a maximum 2-inch dia. metal post of standard wall thickness (2 and 3/6-inch O.D.). The front leading edge of the mailbox must be at least 2^{1/2}-feet from the traveled edge of the pavement. At no time shall a mailbox support be encased in concrete.

Fences and Walls

New fences/walls are not permitted in the right-of-way. Minor repairs of existing fences/walls may be permitted. More extensive repairs shall be considered replacements and the fence/wall shall be relocated outside the right-of-way. Any fence wall within *the* clear zone or construction limits of a project shall be removed at such time other hazards on the road are being addressed in a comprehensive manner. Assistance may be provided by township forces in removing fences/walls. If existing fence/wall was installed prior to the inception of the permit process (July 1, 2003), the township may provide assistance in locating the right-of-way. The township will not be liable for the removal of the fence/wall.

Please see attached diagram, NOTIFY THE ROAD DEPARTMENT BEFORE ANY WORK IS STARTED,
